ADVENTURE GAMES,
HIGH RESOLUTION
GRAPHICS OR
HOME MANAGEMENT
SOFTWARE,**

DATASOFT IS SUPERIOR.

Datasoft Inc.
COMPUTER SOFTWARE

FEW COMPANIES ARE BETTER EQUIPPED TO TEST THE LIMITS OF YOUR IMAGINATION OR DESIGN HIGHER QUALITY PRODUCTS THAN DATASOFT.

Facilities

Our new corporate headquarters, located in Chatsworth, California, consists of two separate buildings. One facility handles production, shipping and warehousing. The second structure combines our administrative offices with research and development departments. Both are fully automated with state-of-the-art computer systems to expedite all phases of business.

Research and Development

Our staff of in-house programmers are some of the most talented and innovative in the industry. Our home management and graphic programmers develop an array of the most imaginative, functional and easy to use software. This assessment is shared by Infoworld's 4 Excellent rating given to Text Wizard. And our expert entertainment programmers are continually developing the hottest selling new computer games in the industry.

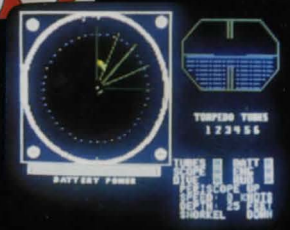

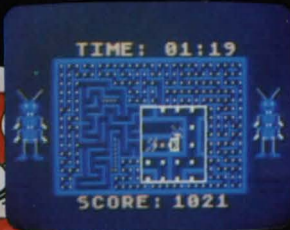

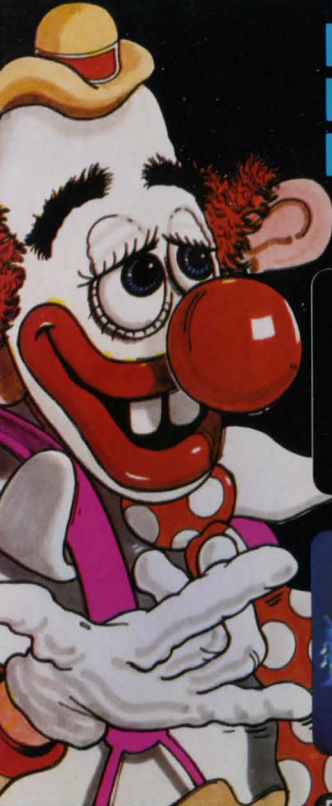

Sales

Our sales and order processing departments have been expanded to accommodate future growth in our business as well as yours. We now offer computerized order processing and more aggressive marketing programs than ever before. We support a network of sales personnel including over 80 distributors and 14 sales representatives, nationwide. Combined with our 800 number, we're ready to respond at a moment's notice.

Production

Production and shipping departments incorporate state-of-the-art duplicating technology. Every product that leaves Datasoft has been scrutinized and tested to meet our stringent standards of quality. We have one of the lowest return ratios in the industry. And one of the fastest shipping response times. In most cases, your order is processed and on the way within two days.

FOR THE WIDEST VARIETY OF CHOICES IN EXCITING ARCADE GAMES, DON'T LEAVE IT TO CHANCE. LEAVE IT TO DATASOFT.

Zaxxon (Arcade Game)

Zaxxon and the deadly homing missile scores a direct hit with arcade game enthusiasts. One of the most successful arcade games of 1982 by Sega is now available for home use from Datasoft. Zaxxon combines totally unique color graphics with unprecedented 3-dimensional effects. You'll maneuver your ship through a battlefield of state-of-the-art enemy missiles, anti-aircraft tanks, a fleet of enemy planes and realistic sound effects. Survive all that and you'll meet your match in the deadly Zaxxon Robot, armed with a lethal homing device. Just when you thought it was safe to go home . . .

Tumble Bugs (Arcade Game)

If you're hungry for new and more exciting challenges you'll feast on this one. Player moves at ever increasing speeds through a randomly generated maze devouring everything in the path. But there's a catch. As you're eating up more and more ground you're also leaving a trail of red dots behind. Once the Tumble Bugs pick up the scent you could be in for more than you bargained for. If you've got a nose for excitement, this one's for you..

Fathom's 40 (Arcade Game)

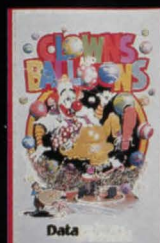

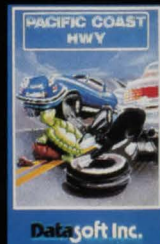

Submerge yourself in the most difficult and real-life challenge of all. War. Fathom's Forty combines board game strategy with realistic computer animation. The sonar aboard your Mark XXI U-Boat tracks the oncoming enemy, but it's your keen sense of logic you must rely on. Using the periscope you'll chase enemy ships throughout the North Atlantic and when you finally get them in your sights give the command—Torpedo bays open—fire one, fire two, ... Fathom's Forty is a big hit with arcade game aficionados.

Pacific Coast Hwy (Arcade Game)

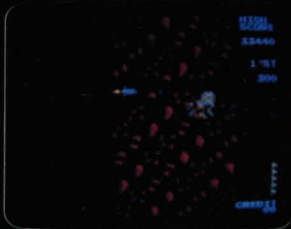

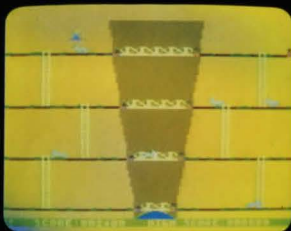

Life in the fast lane just got faster. And more dangerous than ever before. If you can survive rush hour traffic, then try making it across the Pacific Ocean. And if you're lucky enough to master the single-player version, really get your feet wet by competing with a friend in the two-player version.

Clowns & Balloons (Arcade Game)

For true fans of life under the big top. You just hired on with the circus, so of course you're given the most difficult job of all. Clear the tent by popping all the balloons in time for the next show. You can't do it alone so a couple of buddies moving a trampoline below, help you soar as high as the balloons above. Succeed in popping them all and the high wire monkey tips his cap in appreciation. But don't let it go to your head. More balloons are released, at an even higher level.

PLAYABILITY, QUALITY, AFFORDABILITY. 3 ADDED DIMENSIONS TO ADD TO YOUR ENJOYMENT.

Shooting Arcade (Arcade Game)

In this game bullets are as much a threat to your own survival as they are to the targets. Run out of ammunition too soon and you're out of the game. The elephants, bears, ducks and rabbits test your marksmanship while some of the most superb graphics test your imagination. And if your eye is sharp enough to make it to the 10th round, don't be surprised if it's just the beginning of yet another, even more difficult challenge.

O'Riley's Mine (Arcade Game)

You're an Irishman with a short temper for adventure—unless of course, it pays off. You've got a tip that leads you to an abandoned mine full of mind boggling treasures—gold, rubies, diamonds, even coal and oil. You've got to make it down mysterious depths to take what is rightfully yours while avoiding a weird assortment of creatures. You'll need the luck of the Irish to survive this one, but with so much at stake, it's a chance you're willing to take. With trepidation!

Canyon Climber (Arcade Game)

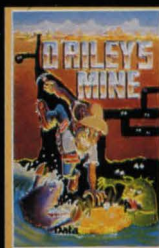

Bring the adventure of the great outdoors, indoors. Even the most experienced climber will have it tough scaling these treacherous walls. As the climber, you'll face 3 different and difficult challenges and a never ending avalanche of boulders, falling rocks, dangerous peaks, wily mountain goats, and birds looking to prey on you. Put on your hiking boots and hang on, it's a long way down.

Moon Shuttle (Arcade Game)

The arcade game from Nichibutsu is now adapted to exciting home use by Datasoft. The screen explodes with life-threatening man-o-wars, meteors, bomb launchers and expandos. Each pass becomes more perilous as you pilot your Moon Shuttle through outer space. You'll shudder as you try to out maneuver spinning rockets on your way to meet your destiny—The Prince of Darkness. Moon Shuttle tests the outer limits of your instinct for survival. But watch out! Just as you think you've got it made the Prince of Darkness shows you his darkest side. His forces mysteriously multiply!

Rosen's Brigade (Arcade Game)

Face an array of planes, choppers and other airborne enemies that come at you in waves. If you are able to face up to the challenge you'll face a hero's welcome. Penetrate behind enemy lines and rescue your crew trapped and held hostage. Not only must you fight off the onslaught of enemy aircraft, but also be crafty enough to conserve your limited fuel supply. Your ammunition is also running short and so is time. It's your mission to beat the clock and save the brigade.

Sands of Egypt (Adventure Game)

It's no mirage. Another superbly conceived game from Datasoft. This is a split screen, animated desert classic uniting Hi-res graphics with a text display of clues and riddles. This one will test your mental as well as physical dexterity. While describing the wonders of the desert, it also paints a detailed picture of each move. But take too many wrong ones and you could run out of water if you don't run out of luck first! As commander of your fate and a one hundred word vocabulary, you've got to unlock hidden secrets of the sand and survive to tell about it. If you can't stand the heat, you won't stand a chance in the Sands of Egypt. A must for strategy game enthusiasts.

Micro-Painter (Graphics)

Excellent for all ages and abilities. Lets you transfer your computer screen into a canvas for creativity. Features inverting "rubberband" line draw, draw mode, diamond fill, "undo" command, and controlled easel for easy selection pattern, colors, and microscope zoom features. It can also generate bar charts, graphs and other visual aids. 4 patterns, 16 colors, 8 luminosities.

Color Print (Graphics)

Turns standard black and white printer into color printer. Original compositions will emerge in black and white, 2, 3, or 4 color high resolution tones—as if rolling hot off the press. Allows user to create brightly colored charts, graphics, symbols, and other creative print-outs. Once you've seen Color Print pictures you won't settle for black and white again.

(Refills available)

Graphic Master (Graphics)

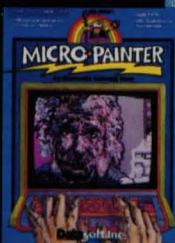

With Graphic Master users will master more of the visual arts. Apply such special effects as rotating or skewing images. Choose one of 10 "windows of color" that work like a paint brush. Choose between 8 differently sized brushes to underlay or overlay color or combine images. Gives you the graphic tools for complete artistic expression.

Graphic Generator (Graphics)

Now user can become his own typesetter. There's a variety of typefaces to choose from: Serif or Sans Serif, Old English, Roman and more. You can even create original character sets, or develop spaceships or exotic aliens of your own design. And when you're ready to come back down to Earth, you can label charts, graphs and schematics.

Le Stick (Joystick)

The ultimate controller for your home computer or game system. Motion detectors give users simple one-handed movements for easy control. Easy to reach firing button provides better response time, and is designed for ease of use for right or left handed operator.

HOME MANAGEMENT TOOLS THAT BRING THE POWER OF THE COMPUTER HOME.
